WARRANTY**

Anchoring Solutions

To see our full line of Anchoring products, visit www.imtra.com.

An excellent choice for:

- Boats with limited or no anchor locker space
- Utility boats
- Aluminum, steel or fiber glass boats

www.imtra.com

4" (MF841161) and
8" (MF841178) version
rollers available

FEATURES

- Compact Anchoring system to suit boats with little or no anchor rode storage
- Designed and made in Australia
- Drum-316 Stainless Steel
- Includes Reversing Solenoid, Circuit Breaker and Up / Down Rocker Switch
- Fitting Instructions Included with full electrical wiring diagram
- Simple installation and "tangle free" rope and chain operation

BENEFITS

- Muir's patented Auto Free Fall, Power Up & Power Down, or Manual Release Free Fall are all available to you in one unit (Free Fall models).
- Mechanical Auto & Manual Release Free Fall means no troublesome electronics need to be mounted on the drum or in your chain locker.
- Drum shaft on a serviceable bearing center for smooth hassle free operation even under full load.
- All Muir Drum Winches are supplied with Circuit Breaker, Reversing Solenoid Pack, Helm Control Switch and Fascia Panels. Free Fall models include simple tools & hardware for an easy 30 second adjustment from Auto Free Fall; to Manual Free Fall and Power Up Power Down options!
- Larger Drum capacity than other Free Falls on the market
- Free Fall models do not require any more space than the standard Drum Winch
