

S-LINK FIRMWARE UPGRADE TOOL RENTAL PROGRAM

Simplify Updates with Sleipner's S-Link Firmware Interface Kit

The computer software *S-Link Programmer* together with the Firmware Upgrade Tool Kit For *S-Link Programmer*, enables upgrade, diagnostics and configuration of Sleipner S-Link products. **Note: The Kit requires a Laptop with USB and Windows 10 or greater.**

Complete S-Link Firmware
Interface tool kit for rent

How the program works

1. Raise an order for 1 x SM61307-RENTAL
2. Regular pricing will prompt and Imtra will override to Special Net Pricing when entering.
3. Imtra will credit back less the days used at \$35/day, not including transit time.
4. The Dealer/Customer is responsible for the freight both ways.
5. The Rental should be returned in a timely manner to avoid charges for extra days.
6. Any missing or damaged parts will be the responsibility of the Renter.
